empowering innovative people how pdf The term empowerment refers to measures designed to increase the degree of autonomy and self-determination in people and in communities in order to enable them to represent their interests in a responsible and self-determined way, acting on their own authority.

Empowering Innovative People How Managers Challenge

The key is empowerment. By empowering people you enable them to achieve goals through their own ideas and efforts. The leader sets the destination, but the team chooses the route. What do employees need to be empowered? People need clear objectives so that they know what is expected of them. They need to develop the skills for the task.
