

encyclopedia of leadership pdf

Leadership is both a research area and a practical skill encompassing the ability of an individual or organization to "lead" or guide other individuals, teams, or entire organizations. Specialist literature debates various viewpoints, contrasting Eastern and Western approaches to leadership, and also (within the West) United States versus European approaches.

Leadership - Wikipedia

A leadership style is a leader's method of providing direction, implementing plans, and motivating people. [citation needed] Various authors have proposed identifying many different leadership styles as exhibited by leaders in the political, business or other fields. Studies on leadership style are conducted [by whom?] in the military field, expressing an approach that stresses a holistic view ...
