I am very torn on how to rate this iron. I absolutely love how it works on my hair- best straightener I've ever had!! (And believe me, I've tried every single brand out there) The thing that truly sucks about this straightener is that it's a complete piece of junk!

A broom is a cleaning tool consisting of usually stiff fibers (often made of materials such as plastic, hair, or corn husks) attached to, and roughly parallel to, a cylindrical handle, the broomstick. It is thus a variety of brush with a long handle. It is commonly used in combination with a dustpan.. A distinction is made between a "hard broom" and a "soft broom".
